GUIDELINES AND REQUIREMENTS FOR PURCHASERS

In order for construction of your building to go quickly as possible, please be aware, of the following.

The building site must be within 6" of level. Construction of a building pad is the responsibility of the buyer.

All building sites must be within 100 feet of a sufficient electrical outlet. (If not, the customer must notify Apple-Jack Construction, LLC 7 days prior to the week of construction and there will be an \$80.00 per day charge for generator use for every day of construction).

The building materials must be able to be delivered within 50 feet of the construction site. If it is not possible, there will be an extra charge incurred.

There must be a 6 foot (unimpeded) clearance on the outside perimeter of the building. If the ground is too rough for movement of scaffold, it must be smoothed before construction can begin.

All walk (personnel) doors are left bare: (painting is not included in the building price and is the responsibility of the customer).

Building permits, legal searches, set backs, site preparations, restrictive covenants, etc., are the responsibility of the customer. Zoning and permitting issues vary from county to county and city to city check with your local planning department for details in your area.

NOTE: if a customer contracts the concrete work on his own, it is very important that the slab be the exact size of the building purchased and the slab must be perfectly level and square. If leveling requirements are not met, there could be a surcharge or in an extreme case, we may not be able to construct on the slab.

Apple-Jack Construction, LLC will supply a building layout with the location and size of the necessary bolts clearly marked.

All sizes are approximate. For any other building sizes or options not listed on this brochure, please call 334-886-3940.

All trash left behind by construction will be burnable or able to be disposed of in garbage pickup. Apple-Jack Construction, LLC will not be responsible for restoring landscaping.

No project is considered to be on the schedule for construction until Apple-Jack Construction, LLC has received a signed contract, and the customers deposit in the amount stated on the contract. This is not a contract. Prices are subject to change. Please call for current pricing and details.

LIMITED ONE YEAR GUARANTEE

Materials and workmanship are guaranteed for one year from day of completion of project.
